

ANN BOLAND

VIRTUAL OPERATIONS & AI SUPPORT

Experienced operational support without another full-time hire.

For founders, small businesses, ecommerce brands, consultants, agencies, and digital businesses.

I help keep customers, projects, documentation, ecommerce operations, and day-to-day workflows moving - using AI where it improves speed without sacrificing accuracy or the human touch.

WHAT I CAN TAKE OFF YOUR PLATE

Customer & Client Support

Email/chat support, customer follow-up, order/account questions, escalation tracking, FAQs, support documentation.

Virtual Operations

Task and project coordination, recurring operations, issue tracking, workflow follow-through, vendor/client coordination.

AI-Assisted Business Support

Research, drafting, summarization, prompt development, prompt libraries, AI-assisted documentation, human QA.

SOPs & Documentation

SOP creation, checklists, internal guides, process documentation, knowledge-base content, workflow cleanup.

Ecommerce & Digital Products

Marketplace support, product information, listing support, launch coordination, quality checks, digital operations.

Quality & Reporting

Spreadsheet tracking, KPI support, QA reviews, discrepancy identification, recurring-issue tracking, process audits.

WHY WORK WITH ME

- 20+ years across operations, service delivery, quality, process improvement, and customer experience.
- Former Head of North America Service Coordination & Data Quality Assurance.
- Current Founder & AI Operations Strategist building Scalable Studio System.
- Hands-on ecommerce and digital product operations through Kindred Studio.
- Daily use of AI for research, drafting, documentation, workflow design, and quality review.
- Strong ownership: if something is open, it gets tracked; if something keeps breaking, I look for the process problem.
